“Oilove”[®]
company presentation

Athens , October 2020

GR-BIO-01
Greece Agriculture

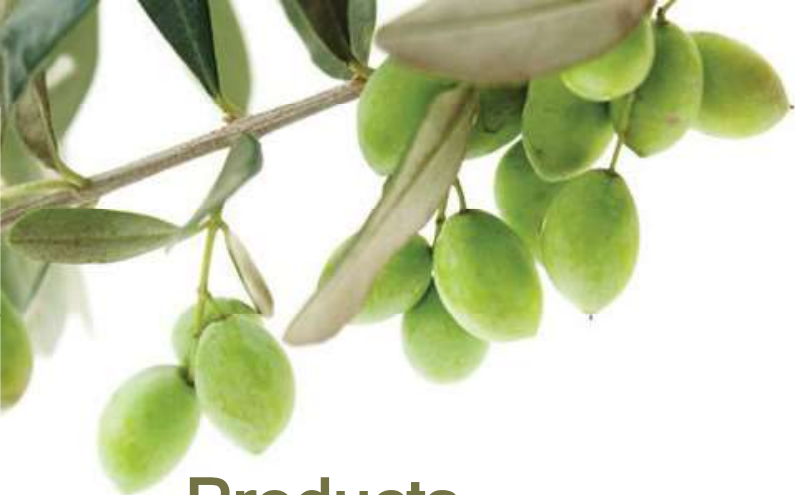

Profile

- Organic Extra Virgin Olive Oil (EVOO) from farm to shelf, using best practices
- Family business based in Vyronas, Athens (Greece); established in 2014.
- Organic EVOO production:
 - Current capacity three (3) to five (5) tones in own farms from mostly young trees
 - Cultivation of six (6) hectares (1500 trees) in Astros Arcadia prefecture, Peloponnese & Tolofon, Fokida prefecture central Greece.
 - Four (4) olive groves “Megaritiki”, “Manaki”, “Koroneiki”, “Patrini”
- Production is expected to double in the next 2-3 years
- Certified for organic farming, bottling, storage & distribution (EC 834/2007)
- B2C Sales through e-shop (www.oilove.gr) and B2B through distributors worldwide
- Sales in Greece, Belgium, Taiwan, Italy, Germany, Switzerland, Poland, UK, Canada, US, Netherlands and India

GR-BIO-01
Greece Agriculture

1. Oilove[®] Limited Edition Organic Extra Virgin Olive Oil (EVOO), Origin Astros Arcadia, Greece

- **Container:** White luxury glass bottle (500ml) with transparent ribbon view packaged individually in carton box
- Also comes in gift box containing 2 pieces
- **Farming area:** Six (6) fields in Astros area (plateau and semi-mountain slopes).
- **Grove:** Blend of “Megaritiki”, “Manaki”, “Koroneiki”
- **Organoleptic profile:** Medium fruity, light bitter, light pungent, steady
- **Capacity:** 3,000 -6,000 bottles

Bottling On Demand - Other SKUs

There are several packaging variations for the two product lines presented earlier:

- The product in 500ml transparent bottle (Oilove origin Tolofon) also comes in a 250 ml bottle in woven sack and gift box.
- Both products come in smaller sized bottles (20ml, 60ml) or regular bottles (e.g. Dorica) or tin can containers (1lt, 3lt, 5lt) for more affordable pricing.

Our promise

Oilove[®] is a family-owned business started in Greece by Alison and Spyros, hard-working professionals with backgrounds in statistics and engineering. Since falling in love with running, Spyros tries to have balanced diet. Working in his olive groves has become his favourite pastime, as olive oil is one of the essential food ingredients in the Mediterranean diet - which many believe is very healthy. Farming has since become Spyros' favourite pastime.

Although Greek soil has produced good olive oils since antiquity, they were not as well marketed in the rest of the world as those from Italy and Spain. Our goal is to bring the best extra virgin olive oils (EVOO) from our farms to your table. Beyond this, we intend to gather statistics that may improve production methods, and thus bring the Greek olive oil production community closer by sharing our experiences with farming and marketing strategy. We will prove that in Greece “together we can.”

Oilove[®] EVOOs are produced, packaged and distributed according to European Union guidelines for organic farming. Currently Oilove[®] markets EVOOs produced in two regions of Greece, Arcadia and Fokida, but the business will expand according to global demand and local collaboration effort. Our oils are produced by cold extraction from four varieties of olives, Koroneiki, Manaki, Megaritiki and Patrini, each of which has its own distinct characteristics.

At **Oilove[®]** www.oilove.gr we strive to make the perfect extra virgin olive oil the way you like it, so you can taste the goodness of what the ancient poet Homer called “liquid gold.”

oilove

extra virgin olive oil

Spyros Amyros traces his origin from two different regions of Greece, Fokida in central Greece and Arcadia in the Peloponnesos Peninsula. Both places are rich in history and tradition.

Always dedicated to perfection in his job, his involvement with the cultivation of olive trees and olive oil production was motivated by his innermost feeling of a necessity to produce a natural and healthy product made with love and care and share it with the rest of the world. Hence the name **Oilove™**, an oil produced with love and dedication that will be so cherished by its consumers.

The **Oilove™ Organic Extra Virgin Olive Oil (EVOO)** was created with top food choice in mind. The Amyros family produces two types of organic EVOO, differentiated by the region of cultivation and by the crop variety, all in a fully-organic farming environment according to European Union legislation and by using the cold extraction method in order to maintain the beneficial properties of olives.

Our first EVOO (region Tolofona Fokida) is produced by olive tree varieties locally called “**Patrini**” and “**Tsounati**” and is slightly blended with a small intake of “**Koroneiki**”. Our olive grove consists of several thousand trees on a gradual rising slope of a low-elevation mountainous area in Tolofona in central Greece, and most of the trees are newly-planted, producing a high quality thin oil with a unique amber color. The taste is medium fruity and pungent and mildly bitter.

Our second EVOO (region Astros Arcadia) comes from the olive tree varieties of “**Megaritiki**”, “**Manaki**” and “**Koroneiki**”. Olive trees are grown on the plain of Astros Arcadia as well as on hilly areas leading to Mt. Parnonas. The oil colour is yellowish-golden and has a medium fruity and pungent taste, giving a sensation of smoothness and great aroma.

Olive oil, called “**liquid gold**” by the ancient Greek poet Homer, is a source of life and health.

We hope you will enjoy our **Oilove™** products just as much as their producer!
