
**WHY
DID WE
CREATE
THE
WORLD'S
FIRST
BLENDING
WATER?**

REGULAR WATER HAS ITS OWN TASTE.

Across the world, water might look similar, but the truth is that every glass of water is unique.

Depending on the source, filtration and storage conditions, every glass of water contains a unique mix of dissolved salts and minerals.

A PREMIUM SPIRIT CAN BE RUINED BY REGULAR WATER.

When you add regular water to a premium malt, you change the delicate balance of flavours that master-distillers have been preserving for decades. To save these premium spirits from being ruined, the world needed blending water that was custom formulated for alcohol blends.

THE WORLD'S FIRST WATER CRAFTED FOR ALCOHOL BLENDS IS HERE.

Presenting an innovation that's sure to awaken the beverage industry and redefine luxury drinks. Blending waters are toned to remove unwanted salts and minerals that bring unwanted flavours to your drink. Our unique formulas are custom crafted to compliment premium whiskeys, rare single malts and fine vodkas.
